## MERN Stack Developer

+91-9716436292 | atishr334@gmail.com | LinkedIn | Github

## SUMMARY

MERN Stack Developer with **1+ year of hands-on experience** building scalable, production-ready web applications. Strong expertise in **React, Node.js, Express, MongoDB, Redux Toolkit, and Appwrite**. Delivered multiple end-to-end projects involving authentication, API integration, dashboards, and real-time updates. Passionate about clean architecture, performance optimization, and creating impactful digital products.,

## WORK EXPERIENCE

### Dreamer Infotech Pvt. Ltd — MERN Stack Developer

Jan 2024 – Nov 2025

- Developed **4+ production-grade MERN applications** from scratch to deployment.
- Built scalable backend APIs and optimized database queries, improving performance by **30%**.
- Implemented secure authentication flows (JWT / Appwrite Auth).
- Ensured responsive UI and cross-browser compatibility across all apps.
- Managed deployments on Vercel & Render, and collaborated with cross-functional teams.

## PROJECTS

### Job Portal:- Developed full-featured job portal. [Link](#)

- Developed a **job portal** using **Appwrite** for backend services and **React.js** for frontend development.
- Implemented **Redux**, **Redux Thunk** for state management and **React Router DOM** for smooth navigation.
- Designed a **responsive UI** with **TailwindCSS**, ensuring an optimal user experience across devices.

### BlogSpace:- Share Your Thoughts with the World. [Link](#)

- Developed a **full-stack blogging platform** using **React.js**, **Appwrite**, and **TailwindCSS** with real-time updates.
- Implemented **user authentication**, **role-based access control**, and **secure image uploads** using Appwrite.
- Built an **Admin Panel** for managing users and blogs, including search, filter, and deletion features.
- Designed a **responsive UI with category filtering and rich text editing** for an enhanced user experience.

### Learning Management System (LMS) Project:- Developed interactive Learning Management System. [Link](#)

- Developed **LMS project** using **Express.js** for backend and **React.js** for frontend.
- Integrated **Cloudinary** for media storage and **JWT** for secure authentication.
- Implemented **Redux** for state management and **React Router DOM** for seamless navigation.

## SKILLS

**Frontend:** React.js, Redux Toolkit, TailwindCSS, JavaScript, HTML, CSS

**Backend:** Node.js, ExpressJS, REST APIs, Python

**Database:** MongoDB, MySQL

**Cloud & Dev Tools:** AppWrite, Firebase, Cloudinary, Git & Github, Vercel, Render

**AI Tools:** ChatGPT, DeepSeek, BlackBox

**Soft Skills:** Project Management, Strong Decision Making, Complex Problem Solving, Good communication

## TECH ACHIEVEMENTS

- Built a **custom Code Editor** using CodeMirror with real-time preview and syntax highlighting.
- Implemented **secure authentication systems** (JWT, Appwrite Auth) across multiple projects.
- Integrated **Appwrite services** (database, storage, functions) to build production-ready full-stack apps.
- Created responsive UI layouts using **TailwindCSS** and reusable components for faster development.

EDUCATION

---

MCA (Online)	(Expected May 2026)
<b>Maharshi Dayanand University (MDU)</b>	Rohtak, Haryana-124001
Bachelor of Vocation (Software Development)	June 2021 – August 2024
Aggarwal College	

CURRENTLY WORKING ON

---

- Learning DSA, System Design, and performance patterns.
- Building a Portfolio Builder SaaS with template locking & AI features.
- Exploring React Native for cross-platform mobile apps.
